roomMaster

Property Management Software

Whether your hotel has 10 rooms, or more than 1,000, roomMaster provides the complete property management package. Bringing you powerful functionality in an affordable, easy to use, scalable solution that handles all your needs from front desk and sales, to point of sale, online reservations, and revenue management.

Hire a 24/7 Receptionist from \$9.20* per day

*based on current price, amortisation over 4 years and current software maintenance charges

Mini Kiosk now available

Allows Customers to create or complete an online check-in, in less than 2 minutes...

Our popular Mini Kiosk series hold from 16 to 64 keys or room cards.

They are available on a low cost rental plan which includes full ongoing maintenance and upgrades or as a purchase.

Run as standalone or interfaced to popular booking engines or back office systems.

How it works

1. Customer chooses a room
2. Enters their details
3. Customer can order other services, e.g. breakfast, internet...
4. Pay by credit card which is authorised online
5. A tax invoice is emailed to the customer
6. Collects their room key or card.

**Many other
options
available!**

**Use your
smartphone or
tablet to release
a key and manage
your bookings
from anywhere
in the world!**

- Allows collection of keys, room cards or room codes for pre-booked rooms or sells rooms
- Shows photos and details of available rooms
- Allows customers to stay up to selected number of days
- Full EFTPOS and or CASH acceptor available on larger models
- Security enhancement through use of optional pre-authorisation
- Dispenses room keys or pre-written room cards
- Holds 16 keys or cards (optional 64)
- Access management reports from reception computer
- Security camera attaches photo to transaction record
- Green, paper saver. No printer required, receipts are emailed only.

Protect your investment with Australia's BEST Relief Management Personnel

Australian Relief Management (ARM) has fast become the premier network and supplier of relief accommodation managers throughout Australia. With our training systems tried and tested in all aspects of accommodation relief including reservation software training, reception, food & beverage operations, housekeeping, laundry duties and government licenses and regulations.

Unlike most other business's supplying relief staff, ARM is not a paid listing website. We know the quality of our relief managers because we train and recruit them at our National Training Motel to ensure we offer our clients a consistent and professional relief solution.

Ezi-Maid® Bed Lifting Systems

The **Ezi-Maid® BedLifting System** is a robust steel frame situated under the bed. Its compact height is only 90mm and the powerful motor lifts the bed to waist height, allowing the bed to be made in the standing position.

The bed base is lifted 500mm off the floor and the same distance out from the bed head allowing total access around and beneath the bed.

HEAVY DUTY ELECTRIC LIFT

The remote controlled **Ezi-Maid®** Bed Lifting System means no more bending and that means fewer injuries and insurance claims. Lifts up to 130kg.

Powerful electric motor with tested minimum 10,000 (27-33 year) cycle life.

Strong, robust steel frame is adjustable to fit single, double, queen and king size beds

The **Ezi-Maid®** Bed Lifting Systems

- Lift beds to waist height for faster bed making
- Allow full access around bed
- Fit single, double, queen and king (electric only) beds
- Result in fewer back injuries
- Create cleaner, healthier rooms
- Reduce recruitment costs
- Reduce injury and compensation claims
- Allow bed making as possible light duties
- Electric lifts up to 130kg king size bed

It is ten years since John Koorey built his own hotel, at the same time, concerned about his future housekeeping staff, he developed the **Ezi-Maid®** Bed Lifting System.

Ten years later, the same Bed Lifting frames are operating at his **Dorsal Boutique Hotel**, along with his latest product- the **NEW SPRING LIFT** frame- which John has developed to satisfy the mid-hospitality market.

Ten years on again and tens of thousands of **Ezi-Maid®** Bed Lifting Systems have been installed globally. John will continue his research and development of new products to address the safety issues of HOUSEKEEPERS and the PREVENTION OF BACK INJURY.

NOW IN USE IN THESE HOTELS AROUND THE GLOBE

Crowne Plaza Changi Singapore
Dorsal Boutique Hotel Forster
Golden Chain Motels Australia
Healthscope Private Hospital Bris
Healthscope Private Hospital Tas.

Hospitality TV without the STB

Our IPTV solutions are implemented in many of the world's leading hotel brands, boutique hotels and guest houses. Working with or without a set top box (STB) and with BYOD/BYOC capability we bring the home entertainment experience into the hotel environment.

As well as IPTV and Video on Demand provision, our server based solutions also enable the distribution of digital signage through the same management platform; creating a true, single digital media platform. Contact us today for a consultation or demonstration.

Keep it simple

Free WiFi

At Internet Now, we try to keep it simple, yet reliable.

Take the hassle out of providing WiFi for your guests. We provide a fully managed and supported robust solution with a 24/7 helpdesk so you don't have to be a "tech expert".

Choose a free WiFi solution where you control how much data or time your guests have on the WiFi—or choose to have limited daily free wifi with User Pays.

We have experts for all kinds of internet and WiFi solutions with over a decade of experience specialising in the accommodation, advertising and retail industries. Call for an obligation free quote.

As a bonus, we are also the exclusive supplier of **INFOSCREEN** — the dynamic web information screen. You can display restaurant menus, promotional videos and even LIVE TIMETABLES such as airport departures/arrivals or ferry times for guests to view in reception.

We keep it simple, like this ad.

New Revenue Stream

This comes from CityButler, which is a locally curated city guide, sitting within the ButlerPad application.

Improved Communications

ButlerPad allows travelers to communicate with the hotel directly from the convenience of their own smartphone, tablet or PC.

Smart Data

Engage guests, exceed their expectations and execute precisely targeted marketing campaigns that improve ROI as well as drive revenue and loyalty.

Service Efficiency

Besides guests' usage analytics, ButlerPad also alerts you when their request has not been actioned. You can now build in an escalation process, ensuring highest levels of guest satisfaction.

Enabling Direct Bookings & Data Capture

ButlerPad has integrated a website widget to capture email addresses from guests even if they are booking directly through OTAs.

ButlerPad has seen phenomenal growth and is well placed to serve more than 1000 hotels globally. This number is expected to grow exponentially by 2016.
